Product Specification sulfamic acid CAS No. : 5329-14-6

Chemical name :	sulfamic acid
chemical name :	sulphamidic acid
Appearance :	white crystalline powder
assay :	min. 99 %
other :	Sulphate: max 0,2 %; Fe: max 5 ppm
Moisture :	max. 0,1 %
Packing :	bags, bigbags, drums, customized packaging

ADR : KI 8 Verpackungsgruppe III, (E)

Einecs : 2262188

UN-No. : 2967

CAS No. : 5329-14-6

WGK : 1

Synonym : Amidoschwefelsäure, Sulfamidsäure, Sulfamsäure, Sulfaminsäure

General informations : We fill sulfamic acid for our clients in customized packaging. From 1 kg to 1000 kg, everything is possible.

Simplify your processes: Let us mix sulfamic acid for you with other components according to your formulations and fill it into packaging specified by you.

In order to guarantee short-term and reliable delivery of sulfamic acid, we have agreed minimum quantities with our customers, which we keep in stock. We would be glad to do this for you too.

The quality of SysKem sulfamic acid is regularly tested in our laboratory.

Application :

Detergent industry: Amidosulfonic acid is often used as an ingredient in detergents, especially acid cleaners, paint removers and descalers. It contributes to the removal of lime and rust deposits.

Textile industry: In textile dyeing and printing, amidosulphonic acid is used as a so-called "reduction accelerator". It supports the reduction of dyestuffs, whereby a faster and more even dyeing can be achieved.

Electroplating: In metal finishing and surface technology, amidosulphonic acid is used as a stabiliser and as a complexing agent in electrolytic baths.

Chemical synthesis: Amidosulfonic acid serves as an intermediate in various chemical syntheses for the production of compounds in other industries.

Label : GHS07
